RUG COMPONENTS

If you want to change up your design, no problem! With FLORDots you can reconfigure your rug as many times as you like! Make sure FLOR tiles are pressed up against each other tightly. Then, simply use FLORDots to secure only the perimeter of your design. When it comes time to change course, you can easily swap tiles in the middle to ensure no damage occurs to the backing.

If you need more FLORDots, simply order online (www.FLOR.com) or call FLOR Customer Care at 1.866.821.3567.
