Depending on the orientation of the squares, the undulating, diagonal stripes in this style can create a variety of optical illusion effects – from a chevron to an arrow pattern to an expanding geometric maze. The diverse color palette makes it suitable in virtually any space. This style features a random pattern designed to vary from square to square, so patterns will not always align. Each tile is unique, not all variations may be shown in photography. Made in the USA 100% recycled face fibers Medium traffic Straight or Parquet (quarter-turn) installation
